## Part B

1. **To which Modification does your representation relate?** (please insert as appropriate)

Main Modification Reference number: MM [ 5 ]

Policies Map Reference number: PM [ ]

Additional Modification Reference number: AM [ ]

2. **If your comment is on a Main Modification, do you consider that the Main Modification is:**

Legally Compliant

Sound – No

3. **Please explain why you consider a Main Modification does not assist in achieving legal compliance or soundness or provide any other comments on it in the box below. Please be as precise as possible.**

### **The effect of the MM:**

**The effect of MM11 will be that the employment land supply will be 'stretched' across a longer Plan Period than originally intended. The consequence being less employment land available. The Local Plan reduces the supply of sites to 59.16ha which will further impact on the availability of land.**

### **Further explanation of our position:**

MM5

The MM proposes a plan period from 2022/23 to 2039/2040. It previously ran from 2021-2037. despite the extended period, and that no additional windfall employment land sites were consented or came forward as applications within the period 2021-22/23, and thus the supply remained 'as originally proposed', the Local Plan makes no further allocations to accommodate a longer period.

Part F of the revised policy referenced within MM5, also reduces the available employment land allocations to 59.16ha of land within Main Employment Uses. Again, it is relevant the MMs do not allocated additional land to account for this reduced supply, which is now to also cover an extended Plan Period.

We note the allocated sites within the Table on page 12 of the MMs, lists allocated sites that include uses that are not Main Employment Uses (as later defined in MM 62). Thus the supply of employment land to meet the needs established within Table 3.5 of the Local Plan are further reduced.

4. Please set out in the box below the changes you consider necessary to make the Main Modification legally compliant and sound.

The Local Plan is at such an advanced stage that it is unlikely that additional sites will be allocated to address the failure to meet objectively assessed needs. There are only two available ways to rectify this:

1. Withdraw the Local Plan or
2. Add in additional text within the review and monitoring mechanisms to reflect the strategic employment need for B8 uses will be a matter for triggering an early review, and will a matter for the subsequent Local Plan if that review is done at five years from adoption.
